Yahtzee

Shapeshifter 1 - Roosevelt Community Center Computer Lounge

This piece was designed to bring together various style elements of graffiti art. Letter outlines were combined with elements such as bits, slices and color fades in order to create this site specific composition. Using acrylics and spray paint, the artwork was then wrapped around three of the walls, redefining and ultimately transforming the space. We wanted to capture a vibrant energy to claim this space as a designated teen area.

All of our work is done with the architecture very much in mind. By bringing those elements into the conversation we create work that is both "in" the building as well as "on" the building.

SMART STUDIOS IS FOCUSED ON ART, GRAPHIC DESIGN & VISUALS IN ARCHITECTURAL SPACES
